Richard F. Moody, Chief Economist
Greg McAtee, Senior Economist

Notes On Initial and Continuing Claims: Regions Footprint

Initial Claims:

During the week ending October 17, a total of 266,884 people within the Regions footprint applied for Unemployment Insurance benefits, down from 293,072 people in the week ending October 10;

Since the week ending March 21, a total of 22,967,038 people within the Regions footprint have filed claims for Unemployment Insurance;

Iowa and Texas saw very slight increases in initial claims in the week ending October 17, all other states saw declines.

Continuing Claims:

As of the week ending October 10, a total of 2,558,201 people within the Regions footprint were receiving regular Unemployment Insurance benefits, down from 2,742,520 in the week ending October 3;

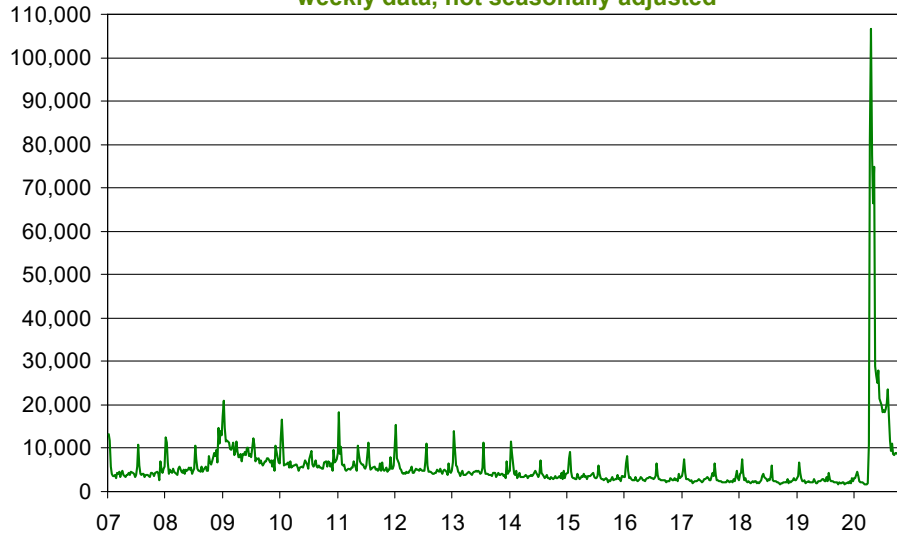

No state within the Regions footprint saw an increase in continuing claims in the week ending October 10;

It should be noted that recent declines in continuing claims in part reflect people having exhausted their regular state-level benefits as opposed to having found jobs.

More than 2.1 million people across the Regions footprint are drawing Unemployment Insurance benefits through the various pandemic relief programs; these numbers are not included in the regular claims data cited above.
